Barriers to Applying

- Concerns about paperwork ranked as top reason diverse populations hesitated to apply
- Other top barriers:
  - Belief that other people need more help
  - Not knowing how to begin process
  - Thinking the amount of the benefit is not worth the hassle
    - Part D Extra Help valued at $4,900 year (Social Security)
    - Medicare Savings Programs put $135.50 back in Social Security check
    - Average SNAP benefit for senior is $105/month
Messaging that Works

Across both surveys and all population groups, and among focus group participants, the #1 message that resonated when asked what would compel people to seek information on these benefits was:

“Help for people on fixed incomes is important because the cost of living goes up, but our incomes do not.”
