Are they buying what you’re selling?
An inside look at what Health Plans need from Community Based Organizations
Today’s Presenter

Kristin Murphy, Director of Market Development-LTSS
Objectives:

• Understand what health plans look for when working with Community Based Organizations

• Understand how you may maximize your partnerships with health plans

• Understand where Community Based Organizations and health plan goals align
Centene’s Purpose

Transforming the health of the community one person at a time

**OUR MISSION**
Better health outcomes at lower costs

**OUR BRAND PILLARS**
Focus on individuals + Active Local Involvement + Whole Health

**OUR BELIEFS**

- We believe in treating the whole person, not just the physical body.
- We believe treating people with kindness, respect and dignity empowers healthy decisions.
- We believe we have a responsibility to remove barriers and make it simple to get well, stay well and be well.
- We believe local partnerships enables meaningful, accessible healthcare.
- We believe healthier individuals create more vibrant families and communities.
Centene Overview

WHO WE ARE

St. Louis
based company founded in Wisconsin in 1984

30,900 employees

#66
on the Fortune 500 list

#4
Fortune’s Fastest Growing Companies (2015)

WHAT WE DO

With government sponsored healthcare programs & implementations, including:

- Medicaid (24 states)
- MLTSS & MMP (9 States)
- MA SNP (6 States)
- ABD Non-Dual (17 States)

12.1 million members

28 states

2 international markets
Long-Term Services and Supports

Go live 2018

7 States
215,000 Members – largest MLTSS plan in country
Intellectual and Developmental Disabilities

* IL, NE, NH and TX cover acute services only; TX also covers habilitation services under the Community First Choice waiver

5 States 21,700+ Members

I/DD LTSS go-live date to be determined

* Illegible text
Medicare Medicaid Plans
(Dual Demonstrations)

6 States
51,000 Members
(14K LTSS)
Essential Elements of MLTSS

1. Adequate Planning and Transition Strategies
2. Stakeholder Engagement
3. Enhanced provision of Home and Community Based Services
4. Alignment of Payment Structures with MLTSS Programmatic Goals
5. Support for Beneficiaries
6. Person-centered Processes
7. Comprehensive and Integrated Service Package
8. Qualified Providers
9. Participant Protections
10. Quality

Definition of Community Based Organization

CBO is a broad term to describe local organizations that offer community living services and supports to advance the health, well-being, independence, and community participation of people with disabilities and older adults.

CBOs include Centers for Independent Living, developmental disability organizations, University Centers for Excellence in Developmental Disabilities Education, Research & Service, behavioral health organizations, Protection and Advocacy Agencies, Aging and Disability Resource Centers, Area Agencies on Aging, aging services organizations, faith-based organizations, Native American tribal organizations (American Indian/Alaskan Native/Native Hawaiian), nutrition program providers and other local service providers for persons with disabilities and/or older adults.

Why managed care needs you...

• Local Approach
• Touch members regularly
• Key to community integration/quality of life
• Know how to access resources/deep knowledge of communities
Making sense out of CBO contracts vs. relationships

- Contracts: Adult Day Care, Home Delivered Meals, Emergency Home Response System, Developmental Disability organizations, Behavioral Health organizations
- Relationships: Local churches, synagogues, food pantries, Protection and Advocacy agencies
- Could be either or both: YMCA, Aging and Disability Resource Centers, CILs, Faith-based organizations, AAAs, Native American tribal organizations
What a MLTSS health plan seeks in a CBO...

• Value person-centered choices
• Keep members where they want to live
• Ensure community integration
• Ensure all health needs met
• Ensure high quality
How we support our members to lead their own healthcare

Person Centered Approach

• Members taking the lead in all aspects of their life.
• Integrating care through choice
• Linking members and families to chosen medical and non-medical community resources
Keeping members where they want to live

- Engaging Community Based Organizations
- CILs/AAAs, Developmental Disability Providers
- Caregiver support services
- Direct care workforce initiatives
- Employment/Volunteer activities
- Identification of triggers for nursing facility admits
- Hospital and nursing home readmit initiatives
- Affordable and accessible housing initiatives
Ensuring all health needs are met

**Total Solution Integration**
- Physical Health
- Behavioral Health
- Pharmacy Services
- LTSS Services
Ensuring High Quality

• Quality of Life
• Transition to Most Integrated Setting
• Integration Risk Factors
• HEDIS
• Person Centered Planning and Coordination
• Satisfaction
• Social Determinants of Health
## CBO partnerships = reaching goals

“I want you to find a bold and innovative way to do everything exactly the same way it’s been done for 25 years!”
How we accomplish our purpose and implement our model….

- Through partnerships with CBOs:
  - Mission Driven
  - Quality Driven
  - Local Approach
  - Creative Contracting
Finding the right CBO for partnership

Building relationships with a broad-base of community organizations driven by individuals with lived disability and aged experience is the cornerstone of our approach.

• Partnerships that ensure members have access to integrated, holistic, person-driven support
• Partnerships that will incentivize high-quality care, facility diversion, and timely and effective transitions.
• Partnerships that will also include LTSS-tailored programs, health and wellness incentives and community integration services
Local connections are the foundation of how we do our best work

- Our local partnership strategy builds on, rather than supplants, local assets

- We know that a local approach enables us to provide accessible, high quality and culturally sensitive services

- We build on local assets to reduce fragmentation and support locally grown innovation, ultimately improving efficiencies while addressing unmet needs
Making the partnership work

• Signing the contract is the easy part
• Putting the plan in motion and getting expected results is the hard part
• Ensuring the supports needed to be able to know your data and take action
• Tweaking best practices, evidenced based practices and outcome based practices for shared goals
• Leveraging expertise, don’t re-invent wheels
• Using facility/staff at the top of their license
• Continuous assessment and monitoring
• Listening, respecting and engaging during all phases
Making the most of a partnership…

• Helping each other fulfill our missions
• Reaching performance, regulatory and quality goals
• Learn about us - find out where your strengths helps us fill our gaps
• Knowing your own strengths and show through data how they will result in what you expect to get out of the relationship
• Does not always have to be a budgetary ROI
  - Many times regulations may drive your cause
  - Or…it is just the right thing to do
How do you even get started?

• **Who to contact:** Find out who to talk to; do your research.

• **Top things to prepare:** Know what you are going to say, know your goal, but be open to what may come out of the conversation.

• **Reality Check:** Know what the expectations are from the state contractors for all parties involved. What innovations are encouraged and what is sensitive.

• **Now or later:** Is this a good time?

• **Purpose:** What do you hope to accomplish?

• **People as resources:** 6 degrees of separation, who do you know that can be a resource or asset?

• **Priorities:** What is most important?
Ensuring Success

• **Think big:** What can you do beyond the basics?

• Finding out what is important to the MCO. **Asking questions and listening**, while keeping your goals in mind.

• How will you **reach the goal**?

• Is it **Scalable**?

• **Show your Value.** What do you bring to the table that the MCO wants or needs, or can do cheaper or more efficient? Use data...show how you perform.
PARTNERSHIP

“You give me half the fish, and I’ll tell my mom to let you live.”
