Plan

Connect

Do
A **stakeholder** is a person or entity with an interest or concern in your business.

A **champion** believes in your business and will help others to believe in it as well.
Stakeholder or Champion?

- People with an interest in your product or service
- Someone who can provide staff, money, technology, information, or influence
- People who will help validate or further inform your understanding of the business environment and your role within it
- Include the people using your services, their families, staff, community groups and business partners, potential funding sources
Consumers

- A stakeholder identifies that yours is the only transportation company that will come when it snows and/or the only company that will come to the door when it rains or snows and offer assistance getting to the vehicle.

- A stakeholder identifies yours is the only agency that makes an effort to match its personal attendant with clients that speak the same language and that permits a change in departure time with less than 36 hours notice.
Your agency provides personal assistance services, a group home provider that you have engaged with about your business, contacts you with concerns about their existing personal assistance agency. They are short-staffed in the evenings and thus forced to put residents to bed by 8:00pm. The group home wants to contract with your entity but are stuck in a contract.

You contact the short-staffed personal assistance provider and offer them a short-term contract to fill evening hours. You tell the group home you are available when the existing contract expires.
You are a nutrition services provider for various entities, including an adult day program. That adult day program is in negotiations with a managed care organization (MCO) to provide services and learns that the MCO also wants nutrition services. The day program contacts you and suggests a partnership so that together you offer a competitive service.
**Stakeholder/Champion Engagement**

**Identify**

**Plan**
Plan how you and your staff will effectively communicate and engage with stakeholders so that they are willing and able to aid in business objectives.

**Engage**
Implement stakeholder engagement activities according to your plan.

**Evaluate**
Assess the impact of the stakeholder engagement, and restructure stakeholder engagement activities, if necessary.

Prioritize the people and organizations who will have the most impact on your business
Plan

- Define how each stakeholder/champion will add value
- Define how you want them to participate
- Identify meaningful interactions for the engagement

Champions

- How will they specifically help your organization meet its objectives
- Do they have a resounding strength?
Engage

- **Methods**
  - Surveys
  - Focus Groups
  - One-on-One Discussions
    - **Share:**
      - What you learned during the environmental scan
      - Results of your SWOT analysis
    - **Ask**
      - What are you missing?
      - Do they see things differently?
      - What would they advise?
Engage

- **Payers**
  - Ask about their needs.
  - Ask about gaps in services. Explore together how your services may fill those gaps.
  - Ask them about their expectations.

- **Community Partners**
  - Identify common challenges, goals or desired outcomes.
  - Identify areas for collaboration. Find the win-win and commit to helping all parties involved achieve their goals.

- **Utilizers of Services and/or Representatives**
  - Ask them about what they’d like to see in your organization – how to make the change successful.
  - Ask them about their concerns.
  - Follow-up on issues and questions, but don’t make promises you can’t keep.

- **Government Entities**
  - Review requests for proposal, contracts, regulations and any other guidance documents.
  - Identify questions and brainstorm strategies to help meet the objectives of the delivery system.
  - Vet your ideas with them and ask what they see as gaps and priorities.
Evaluate

- Were your objectives met
- What are any new objectives
- Who were the Low to High Influencers
- What actions created by-in
- What were barriers to stakeholder engagement
- Did you seek partner ideas for change/improvement
- Do you need to add new stakeholders, as result of change
