Source: CMS 64 data, Division of Financial Operations

ACRG=Annual Compound Rate of Growth

Total Long-Term Care expenditures include Personal Care, HCBS Waiver, Home Health, SNF, ICF/MR, and HCBS programs authorized under Sections 1115 and 1929 of the Social Security Act.

Long-Term Care data do not include expenditures for most managed care programs that provide long-term care.

Please see the accompanying report for additional information regarding these data.

Alaska's reported FY 2008 NF expenditures decreased significantly from FY 2007. The \$42 million decrease is similar to the increase in reported ICF/MR spending, so it is possible NF expenditures were reported under ICF/MR. Data for Arizona, California, Florida, Massachusetts, Minnesota, New Mexico, New York, Texas, and Wisconsin do not include expenditures for managed care programs that provide long-term care. Data for several states include expenditures for Medicaid Upper Payment Limit programs, as described in the accompanying report. Please see the accompanying report for additional information regarding these data.

New York's reported FY2008 expenditures will likely increase in future reports. Reported FY2003 through FY2007 expenditures increased \$100 - \$500 million after data were first presented.
 Alaska's reported FY 2008 ICF/MR expenditures are much greater than actual spending. Alaska has no ICF/MR, but may pay for people needing out-of-state ICF/MR. Previously reported expenditures were less than \$200,000.
 California's reported FY2007 and FY 2008 expenditures will likely increase in future reports. Reported FY 2003 through FY 2006 expenditures increased \$100 - \$135 million after data were first presented.
 Data for Vermont do not include a program that covers both long-term and acute care because data specific to long-term care spending are not available.
 Data for Arizona and Wisconsin do not include expenditures for managed care programs that provide long-term care.
 Data for several states include expenditures for Medicaid Upper Payment Limit programs, as described in the accompanying report.
 Please see the accompanying report for additional information regarding these data.

California's reported FY2008 expenditures will likely increase in future reports. Reported FY2005 through FY2007 expenditures increased \$400 - \$550 million after data were first presented.
 Data for Vermont do not include a program that covers both long-term and acute care because data specific to long-term care spending are not available.
 Utah's reported FY 2008 expenditures are incorrect. The data include a negative \$37.9 million prior period adjustment, which caused the state's total to be negative.
 Data for Arizona, California, Florida, Massachusetts, Minnesota, New Mexico, New York, Texas, and Wisconsin do not include expenditures for managed care programs that provide long-term care.
 Please see the accompanying report for additional information regarding these data.

New York's reported FY2008 expenditures will likely increase in future reports. Reported FY2003 through FY2007 expenditures increased \$60 - \$120 million after data were first presented.

California's reported FY2008 expenditures will likely increase in future reports. In most years from FY2003 through FY2007, expenditures increased \$200 - \$300 million after data were first presented.

Data for Kansas, Minnesota, New Mexico, Texas, and Wisconsin do not include expenditures for managed care programs that provide long-term care.

See Eiken and Burwell "Medicaid HCBS Waiver Expenditures: FY2003 through FY2008" for more information about these data.

Data for Arizona, California, Florida, Massachusetts, Minnesota, New Mexico, New York, Texas, and Wisconsin do not include expenditures for managed care programs that provide long-term care.

Data for Vermont do not include a program that covers both long-term and acute care because data specific to long-term care spending are not available.

Data for Tennessee do not include home health provided in a managed acute care program

Please see the accompanying report for additional information regarding these data.

New York's reported FY2008 expenditures will likely increase in future reports. Reported FY2003 through FY2007 expenditures increased \$60 - \$120 million after data were first presented.

California's reported FY2008 expenditures will likely increase in future reports. In FY 2005 and FY2007, expenditures increased \$700 - \$800 million after data were first presented.

Data for Tennessee do not include home health provided in a managed acute care program

Data for Vermont do not include a program that covers both long-term and acute care because data specific to long-term care spending are not available.

Utah's reported FY 2008 expenditures include a negative \$37.9 million prior period adjustment for personal care, which caused the state's personal care total to be negative.

Data for Arizona, California, Florida, Kansas, Massachusetts, Minnesota, New Mexico, New York, Texas, and Wisconsin do not include expenditures for managed care programs that provide long-term care.

Please see the accompanying report for additional information regarding these data.

New York's reported FY2008 expenditures will likely increase in future reports. Reported FY2003 through FY2007 expenditures increased \$200 - \$500 million after data were first presented.

California's reported FY2008 expenditures will likely increase in future reports. In FY 2005 and FY2007, expenditures increased \$800 - \$900 million after data were first presented.

Data for Tennessee do not include home health provided in a managed acute care program

Data for Vermont do not include a program that covers both long-term and acute care because data specific to long-term care spending are not available.

Utah's reported FY 2008 expenditures include a negative \$37.9 million prior period adjustment for personal care, which caused the state's personal care total to be negative.

Data for Arizona, California, Florida, Kansas, Massachusetts, Minnesota, New Mexico, New York, Texas, and Wisconsin do not include expenditures for managed care programs that provide long-term care.

Data for several states include expenditures for Medicaid Upper Payment Limit programs, as described in the accompanying report.

Please see the accompanying report for additional information regarding these data.

New York's reported FY2008 expenditures will likely increase in future reports. Reported FY2003 through FY2007 expenditures increased \$60 - \$120 million after data were first presented.

California's reported FY2008 expenditures will likely increase in future reports. In most years from FY2003 through FY2007, expenditures increased \$200 - \$300 million after data were first presented.

Data for Wisconsin do not include expenditures for a managed care program that provides long-term care.

Florida did not report spending for its DD waivers in one quarter of 2008.

Mississippi reported overall HCBS waiver expenditures, but has not specifically reported spending for its DD waiver since the first quarter of 2004.

See Eiken and Burwell "Medicaid HCBS Waiver Expenditures: FY2003 through FY2008" for more information about these data.

TABLE I

HCBS WAIVERS A/D

Florida did not report spending most of its waivers in one quarter of 2008.

Mississippi reported overall HCBS waiver expenditures, but has not specifically reported spending for its Aging and Disability waivers since the first quarter of 2004.

Data for Minnesota, New Mexico, Texas, and Wisconsin do not include expenditures for managed care programs that provides long-term care.

See Eiken and Burwell "Medicaid HCBS Waiver Expenditures: FY2003 through FY2008" for more information about these data.

This table only includes data for home and community-based services not captured in other categories such as personal care and home health.

Data for Arizona do not include expenditures for a managed care program.

Data for Vermont do not include a program that covers both long-term and acute care because data specific to long-term care spending are not available.

Please see the accompanying report for additional information regarding these data.
