What is a Master Plan for Aging (MPA)?

An MPA is a cross-sector, state-led strategic planning resource that can help states transform the infrastructure and coordination of services for their rapidly aging population.

It is a living document that:

- Provides a clear framework to plan for 10 years or more
- Enables governors and/or legislative leaders to communicate a clear vision and priorities for their state
- Guides state/county/local policy, public/private programs, and funding toward aging with dignity
- Reflects extensive input from the community, including people of all ages and abilities, actively considering the needs of populations facing racial and ethnic disparities in aging
- Person-Centered
- Equity Lens
Benefits of Developing a Master Plan for Aging

- Build bridges across government agencies and departments
- Facilitate collaboration with diverse stakeholders
- Promote equity and combat bias and discrimination
- Raise awareness among policymakers and the public about how aging and disability-related policy impacts people at all stages of life
- Establish statewide priorities to quickly respond to unanticipated and urgent events
- Create academic, research, and other partnerships that bring aging and gerontology experts to the forefront of policy influence and ensure evidence-based planning
- Incorporate an aging and disabilities lens across state priorities beyond traditional health care and community services

Governor Baker’s Challenge to the Commonwealth

“We need to think differently about aging in Massachusetts. This isn’t just about acknowledging a shift in demographics; it’s about being intentional in our planning to ensure that those who grew up here, raised families and built communities, can continue to contribute their energy experience and talents where they live and make Massachusetts the most age-friendly state.”

– Governor Charles D. Baker, 2018 –

Master Plan for Aging: Five Bold Goals for 2030
The MPA is for people of all ages who are family, friends, neighbors, coworkers, and caregivers of older adults.

Goal 1: Housing for All Ages and Stages
Goal 2: Health Reimagined
Goal 3: Inclusion and Equity, Not Isolation
Goal 4: Caregiving that Works
Goal 5: Affording Aging
Eight Building Blocks for Getting Started with an MPA

1. Recruit champions dedicated to advancing the MPA
2. Leverage public and private resources to make the case for an MPA
3. Communicate strategically to gain broad support for an MPA
4. Leverage data to identify unmet needs and establish metrics for success
5. Engage state agencies serving older adults and people with disabilities
6. Identify and align common goals across stakeholders
7. Collaborate with and build on existing age-related initiatives
8. Identify events that highlight the need for an MPA
