

Examples of Partner Organizations for Vaccine Programs

Examples of Partnerships

State and territorial aging and disability agencies may consider partnering with other state agencies, tribal entities, or local community-based organizations to facilitate a vaccination program.

The following list provide examples of key organizations a state or territory may consider as a partner.

- Aging and Disability Resource Centers (ADRCs)/No Wrong Door (NWD) Systems
- Area Agencies on Aging (AAAs)
- State Departments of Health
- Title VI Native American programs and tribes
- Centers for Independent Living (CILs)
- State (DD) Councils on Developmental Disabilities
- Assistive Technology (AT) programs
- Managed Long-Term Services and Supports Plans
- Health/Medical Systems/EMS (trusted messengers and to administer vaccines)
- Emergency operations/centers (administer vaccines in homes)
- Local pharmacies (administer vaccines)
- Colleges and universities, including pharmacy and nursing schools (administer vaccines)
- 211s (trusted messenger)
- Meals on Wheels programs (trusted messenger)
- Local newspapers and radio stations, including bilingual information/commercials (trusted messenger)
- Faith-based entities and leaders (trusted messenger)
- Community members (trusted messenger)
- Businesses, such as Chambers of Commerce (trusted messenger)

Partnerships for Vaccine Equity

The Centers for Disease Control and Prevention's (CDC) [Partnering for Vaccine Equity \(P4VE\)](#). In 2020, CDC launched the Partnering for Vaccine Equity (P4VE) program to increase equity in adult immunization. The program provided funding to national, state, local, and community-level partners, who prioritized equity in vaccination access and uptake for those groups that experience disparities in immunization – with a particular focus on racial and ethnic communities.
