

Jakenna Lebsock At Large

Jakenna Lebsock currently oversees all operational, clinical, and program development aspects of Medicaid managed care in Arizona, including Arizona's MLTSS contracts for aging populations as well as those diagnosed with physical disabilities and intellectually/developmental disabilities. Ms. Lebsock has 17 years of industry experience, all of which includes various aspects of MLTSS work at both a managed care organization as well as the State Medicaid Agency. Ms. Lebsock's background is strongly steeped in quality management/performance improvement but includes comprehensive efforts in policy development, monitoring/oversight, stakeholder engagement, and program development. Ms. Lebsock's passion is developing and supporting a continuum of care that celebrates life at each juncture through self-determination, innovative supports, and community engagement.

Ms. Lebsock holds dual Bachelor degrees' in Marketing and Business Management from Johnson & Wales University and a Master's degree in Public Administration with a focus on State/Local Government and Nonprofit Management from the University of Arizona.
